cleaning machine

600 - 200 ml / 60 liter

1:100 (1%) - 1:30
(0.3%)

floor cleaner

100 - 33.3 ml / 10 liters

1:100 (1%) - 1:30 (3%)

Description

Bio Special Cleaner Industrie is a highly foaming biotechnological degreaser for industrial applications.

Technology

The technology used is based on the combination of readily biodegradable surfactants and natural bacterial cultures. This

ingredients provide exceptional degreasing results without the use of

Organic solvents with high pH values. The bacterial cultures also remove unpleasant odors from drains and ditches.

Components

<5% non-ionic surfactants, <5% amphoteric surfactants

active ingredients, bacterial cultures, dyes, perfume, preservatives.

Dosage

1:30 to 1:100.

For professional use only.

Domain

Bio Special Cleaner Industrie is ideal for partially degreasing and cleaning greasy surfaces. Dissolves mineral oils and greases. Deposits are removed removed and odors are neutralized.

Instructions for use

1. Adjust the lever on the foam gun to produce thick foam.
2. Spray the foam onto the surfaces and let it work for about 5 minutes.
3. Then clean the surfaces with cold water using a low-pressure or high-pressure cleaner.

Clean with a high-pressure cleaner.

Cleaning instructions

- Follow our dosage recommendations, as this saves costs and protects the environment.
- Do not mix Bio Special Cleaner Industrie with other cleaning agents.
- Always clean from top to bottom or from the cleanest spot to the cleanest spot, in the dirtiest area.
- Leave the adjustment of the bee*pure® dosing system exclusively to our service employees
