Description

The bee*pure® Dishwashing Liquid Concentrate is an ecological dishwashing liquid for manual use.

Technology

The technology used is based on a combination of wetting agents and surfactants. The carefully balanced ingredients deliver exceptional cleaning results with low aquatic toxicity. The bee*pure® dishwashing liquid concentrate meets the applicable requirements of the European standard for aerobic and anaerobic biodegradability and is the best solution for reducing the environmental impact of water used in dishwashing.

Ingredients

Sodium laureth sulfate, salt, colorant, perfume, preservative.

For more information, please consult the technical data sheet.

Dispose of residual materials at recycling facilities in an environmentally friendly manner.

EUH208 – Contains a mixture of: 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1). May produce an allergic reaction.

Dosage

1:800, 12 ml per 9.6 litres, 3 pump doses of 4 ml each.

For professional use only.

Scope of application

Specially designed for cleaning dishes, glasses, cutlery, and other kitchen utensils. Dishwashing liquid concentrate cleans easily, quickly, and thoroughly.

Instructions for use

1. Add the cleaner to the sink before filling it with water.
2. Place pans, pots, dishes and glasses in the cleaning bath and let it run briefly soak.
3. Clean with a cloth, brush or scouring pad.
4. Rinse thoroughly with clean water.
5. Let it dry.

Cleaning instructions

- Follow our dosage recommendation, as this saves costs and is environmentally friendly.
- Do not mix the detergent concentrate with other cleaning agents.
