

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

Product name	C1
Product description	Nano coating solution for glass and ceramic surfaces
Other means of identification	UFI: 7PNM-SAVP-Q607-GM6T

### 1.2. Relevant identified uses of substance or mixture and uses advised against

Identified uses	Glass and ceramic surface protection for industrial usage
Uses advised against	No specific uses advised against are identified

### 1.3. Details of the supplier of the safety data sheet

Supplier	NanoEnzo Eenruiter 6 3833 LC Leusden, The Netherlands +31 085 007 99 00 info@nanoenzo.nl
----------	--

### 1.4. Emergency telephone number

Emergency telephone	Does the ILT need to take immediate action in the event of an incident or accident? If so, report it by phone via 088 - 489 00 00. This telephone number can be reached day and night.
---------------------	---

## SECTION 2: Hazards identification

### 2.1. Classification of the substance or mixture

#### Classification (EC 1272/2008)

Physical hazards	Flam. Liq. 2 – H225
Health hazards	Eye Irrit. 2 – H319

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

**Environmental hazards** Not classified

## **2.2. Label elements**

**Pictogram**

**Signal word** Danger

**Hazard statements** H225 Highly flammable liquid and vapor.

H319 Causes serious eye irritation.

**Precautionary statements** P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P264 Wash... thoroughly after handling

P280 Wear protective clothing, gloves, eye and face protection.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337+P313 If eye irritation persists: Get medical advice/ attention.

P501 Dispose of contents/container in accordance with national regulations.

**Contains** Ethanol

## **2.3. Other hazards**

This product does not contain any substances classified as PBT or vPvB.

Endocrine-disrupting properties: The product fails to meet the criteria.

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

## SECTION 3: Composition/information on ingredients

### 3.2. Mixtures

Substance Name	Identification Numbers	Classification	Concentration (wt%)
<b>Ethanol</b>	CAS Number: 64-17-5 EC Number: 200-578-6	Flam. Liq. 2 – H225 Eye Irrit. 2 – H319	≥88

The full text for all hazard statements is displayed in Section 16.

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

<b>General Information</b>	Get medical attention immediately. Show this Safety Data Sheet to the medical personnel.
<b>Inhalation</b>	Remove affected person from source of contamination. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Maintain an open airway. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Place unconscious person on their side in the recovery position and ensure breathing can take place.
<b>Ingestion</b>	Rinse mouth thoroughly with water. Do not induce vomiting unless under the direction of medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. Place unconscious person on their side in the recovery position and ensure breathing can take place.
<b>Skin contact</b>	Wash skin thoroughly with soap and water or use an approved skin cleanser. After contact with skin, take off immediately all contaminated clothing, and wash immediately with plenty of water. Get medical attention if irritation persists after washing.
<b>Eye contact</b>	Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 10 minutes.

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

**Protection of first aiders** First aid personnel should wear appropriate protective equipment during any rescue.

## **4.2. Most important symptoms and effects, both acute and delayed**

**General information** See Section 11 for additional information of health hazards. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.

**Inhalation** Prolonged inhalation of high concentrations may damage respiratory system.

**Ingestion** Gastrointestinal symptoms, including upset stomach. Fumes from the stomach contents may be inhaled, resulting in the same symptoms as inhalation. Aspiration hazard if swallowed. Entry into the lungs following ingestion or vomiting may cause chemical pneumonitis.

**Skin contact** May cause an allergic skin reaction.

**Eye contact** May cause temporary eye irritation.

## **4.3. Indication of any immediate medical attention and special treatment needed**

**Notes for the doctor** Treat symptomatically.

## **SECTION 5: Firefighting measures**

### **5.1. Extinguishing media**

**Suitable extinguishing media** The product is flammable. Extinguish with foam, carbon dioxide, dry powder or **media** water fog.

**Unsuitable extinguishing media** Do not use water jet as an extinguisher, as this will spread the fire.

### **5.2. Special hazards arising from the substance or mixture**

**Specific hazards** Containers can burst violently or explode when heated, due to excessive pressure build-up.

**Hazardous combustion** Thermal decomposition or combustion products may include the following products substances: Harmful gases or vapors.

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

### **5.3. Advice for firefighters**

<b>Protective actions during firefighting</b>	Avoid breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapors and protect men stopping the leak. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.
<b>Special protective equipment for firefighters</b>	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents.

## **SECTION 6: Accidental release measures**

### **6.1. Personal precautions, protective equipment and emergency procedures**

<b>Personal precautions</b>	No action shall be taken without appropriate training or involving any personal risk. Keep unnecessary and unprotected personnel away from the spillage. Wear protective clothing as described in Section 8 of this safety data sheet. Follow precautions for safe handling described in this safety data sheet. Wash thoroughly after dealing with a spillage. Ensure procedures and training for emergency decontamination and disposal are in place. Do not touch or walk into spilled material. Provide adequate ventilation.
-----------------------------	---

### **6.2. Environmental precautions**

<b>Environmental precautions</b>	Avoid discharge into drains or watercourses or onto the ground.
----------------------------------	---

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

### **6.3. Methods and material for containment and cleaning up**

<b>Methods for cleaning up</b>	Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Small spillages: Collect spillage. Large spillage: Absorb spillage with non-combustible, absorbent material. Collect and place in suitable waste disposal containers and seal securely. Label the containers containing waste and contaminated materials and remove from the area as soon as possible. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. For waste disposal, see Section 13.
--------------------------------	--

### **6.4. Reference to other sections**

<b>Reference to other sections</b>	For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.
------------------------------------	---

## **SECTION 7: Handling and storage**

### **7.1. Precautions for safe handling**

<b>Usage precautions</b>	Read and follow manufacturer's recommendations. Avoid contact with skin. Take precautionary measures against static discharge.
<b>Advice on general occupational hygiene</b>	Wash promptly if skin becomes contaminated. Take off contaminated clothing. Wash contaminated clothing before reuse. Do not eat, drink or smoke when using this product. Wash at the end of each work shift and before eating, smoking and using the toilet. Change work clothing daily before leaving workplace.

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

## **7.2. Conditions for safe storage, including any incompatibilities**

### **Storage precautions**

Store away from incompatible materials (see Section 10). Store locked up. Keep only in the original container. Keep container tightly closed, in a cool, well-ventilated place. Keep containers upright. Protect containers from damage. Bund storage facilities to prevent soil and water pollution in the event of spillage. The storage area floor should be leak-tight, jointless and not absorbent. Use containers made of the following materials: Teflon Polyethylene. Carbon steel. PP; Polypropylene. Unsuitable container materials: PS; Polystyrene. Rubber. EPDM; Ethylene Propylene Diene Monomer.

### **Storage class**

Chemical storage.

## **7.3. Specific end use(s)**

### **Specific end use(s)**

The identified uses of this product are detailed in Section 1.2.

## **SECTION 8: Exposure controls/Personal protection**

### **8.1. Control parameters**

#### **Ingredient comments**

No exposure limits known for ingredient(s).

### **8.2. Exposure controls**

#### **Protective equipment**

#### **Appropriate engineering controls**

Provide adequate ventilation. Personal, workplace environment or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory equipment. Use process enclosures, local exhaust ventilation or other engineering controls as the primary means to minimize worker exposure. Personal protective equipment should only be used if worker exposure cannot be controlled adequately by the engineering control measures. Ensure control measures are regularly inspected and maintained. Ensure operatives are trained to minimize exposure.

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

**Eye/face protection**

Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Personal protective equipment for eye and face protection should comply with European Standard EN166. Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses.

**Hand protection**

Chemical resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, gloves should comply with European Standard EN374. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended.

**Other skin and body protection**

Appropriate footwear and additional protective clothing complying with an approved standard should be worn if a risk assessment indicates skin contamination is possible.

**Hygiene measures**

Provide eyewash station and safety shower. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse. Clean equipment and the work area every day. Good personal hygiene procedures should be implemented. Wash at the end of each work shift and before eating, smoking and using the toilet. When using do not eat, drink or smoke. Preventive industrial medical examinations should be carried out. Warn cleaning personnel of any hazardous properties of the product.

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

<b>Respiratory protection</b>	Respiratory protection complying with an approved standard should be worn if a risk assessment indicates inhalation of contaminants is possible. Ensure all respiratory protective equipment is suitable for its intended use and is 'CE'-marked. Check that the respirator fits tightly and the filter is changed regularly. Gas and combination filter cartridges should comply with European Standard EN14387. Full face mask respirators with replaceable filter cartridges should comply with European Standard EN136. Half mask and quarter mask respirators with replaceable filter cartridges should comply with European Standard EN140.
<b>Environmental exposure controls</b>	Keep container tightly sealed when not in use.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

<b>Physical state</b>	Liquid.
<b>Colour</b>	Colorless
<b>Odour</b>	Characteristic
<b>Odour threshold</b>	No information available.
<b>pH</b>	1.9-2.2
<b>Melting point</b>	-88°C
<b>Initial boiling point and range</b>	78°C @4 mmHg.
<b>Flash point</b>	18°C.
<b>Evaporation rate</b>	No information available.
<b>Flammability (solid, gas)</b>	Not applicable.
<b>Upper/lower flammability or explosive limits</b>	No information available.
<b>Vapor pressure</b>	1 kPa
<b>Vapor density</b>	>1.54

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

<b>Relative density</b>	No information available.
<b>Density</b>	0.79 g/cm <sup>3</sup> .
<b>Partition coefficient n-octanol/water 20°C</b>	Not applicable
<b>Solubility(ies)</b>	Miscible with water.
<b>Partition coefficient</b>	No information available.
<b>Auto-ignition temperature</b>	No information available.
<b>Decomposition temperature</b>	No information available.
<b>Viscosity</b>	No information available.
<b>Explosive properties</b>	No information available.
<b>Oxidizing properties</b>	Not available.
<b>Particle characteristics</b>	Not applicable

### 9.2. Other information

#### Information with regard to physical hazard classes

<b>Explosives</b>	Not applicable.
<b>Oxidizing properties</b>	Not applicable.
<b>Self-heating substances and mixtures</b>	Not applicable.
<b>Corrosion to metals</b>	Not applicable.

#### Other safety characteristics

<b>SAPT-temperature</b>	Not applicable.
<b>Surface tension</b>	Not applicable.
<b>Refraction index:</b>	Not applicable.

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

## SECTION 10: Stability and reactivity

### **10.1. Reactivity**

**Reactivity** See the other subsections of this section for further details

### **10.2. Chemical Stability**

**Stability** Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.

### **10.3. Possibility of hazardous reactions**

**Possibility of hazardous reactions** No potentially hazardous reactions known.

### **10.4. Conditions to avoid**

**Conditions to avoid** Avoid heat. Containers can burst violently or explode when heated, due to excessive pressure build-up.

### **10.5. Incompatible materials**

**Materials to avoid** Oxidizing materials. Acids-oxidising. Alkalis.

### **10.6. Hazardous decomposition products**

**Hazardous decomposition products** Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases and vapors. Organic amine vapors.

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

### SECTION 11: Toxicological information

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

##### **Acute toxicity**

Substance Name	Exposure Route	Dose	Species
Ethanol	Oral	LD50 10.470 mg/kg	Rat
	Dermal	Not available	-
	Inhalation (4h) Vapor	LC50 124,7 mg/l	Rat

##### Skin corrosion/irritation

**Skin corrosion/irritation** Based on available data the classification criteria are not met.

##### Serious eye damage/irritation

**Serious eye damage/irritation** Causes serious eye irritation.

##### Respiratory sensitization

**Respiratory sensitization** Based on available data the classification criteria are not met.

##### Skin sensitization

**Skin sensitization** Based on available data the classification criteria are not met.

##### Germ cell mutagenicity

**Genotoxicity – in vitro** Based on available data the classification criteria are not met.

##### Carcinogenicity

**Carcinogenicity** Based on available data the classification criteria are not met.

**IARC carcinogenicity** Contains a substance / a group of substances which may cause cancer. IARC Group 1 Carcinogenic to humans.

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

## Reproductive toxicity

**Reproductive toxicity - fertility** Based on available data the classification criteria are not met.

**Reproductive toxicity - development** Based on available data the classification criteria are not met.

## Specific target organ toxicity – single exposure

**STOT – single exposure** Not classified as a specific target organ toxicant after a single exposure.

## Specific target organ toxicity – repeated exposure

**STOT – repeated exposure** Not classified as a specific target organ toxicant after a single exposure.

## Aspiration hazard

**Aspiration hazard** Based on available data the classification criteria are not met.

## 11.2. Information on other hazards

**Endocrine disrupting properties** The product does not contain a substance that is considered to have endocrine disrupting properties.

## SECTION 12: Ecological information

**Ecotoxicity** The product components are not classified as environmentally hazardous. However, large or frequent spills may have hazardous effects on the environment.

## 12.1. Toxicity

Substance Name	Aquatic Toxicity	Dose
Ethanol	Acute fish toxicity	LC50 8.140 mg/l / 48 h
	Acute algae toxicity	EC50 5.000 mg/l / 7 d

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

	Acute invertebrates toxicity	EC50 9.268-14.221 mg/l / 48 h
--	------------------------------	-------------------------------

## 12.2. Persistence and degradability

**Persistence and degradability** The product is biodegradable.

## 12.3. Bioaccumulative potential

**Bioaccumulative potential** Bioaccumulation is unlikely.

**Partition coefficient** No information available.

## 12.4. Mobility in soil

**Mobility** The product is water-soluble and may spread in water systems. Volatile liquid. The product contains organic solvents which will evaporate easily from all surfaces.

## 12.5. Results of PBT and vPvB assessment

**Results of PBT and vPvB assessment** This substance is not classified as PBT or vPvB according to current EU criteria.

## 12.6. Other adverse effects

**Endocrine disrupting properties** The product does not contain a substance that is considered to have endocrine disrupting properties.

## 12.7. Other adverse effects

**Other adverse effects** None known.

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

## SECTION 13: Disposal consideration

### 13.1. Waste treatment methods

#### **General information**

The generation of waste should be minimized or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. Disposal of this product, process solutions, residues and by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any local authority requirements. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers on liners may retain some product residues and hence be potentially hazardous.

#### **Disposal methods**

Do not empty into drains. Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labelled with their contents. Incineration or landfill should only be considered when recycling is not feasible.

## SECTION 14: Transport information

### Land Transport (ADR/RID)

#### 14.1. UN Number

UN 1139.

#### 14.2. UN proper shipping name

COATING SOLUTION.

#### 14.3. Transport hazard class(es)

**Class 3**

#### 14.4. Packing group

II

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

**14.5. Environmental hazards**

Environmentally                      No  
hazardous substance/  
marine product

**14.6. Special precautions for user**

Tunnel restriction code              D/E

**Air Transport (IATA)**

**14.1. UN Number**

UN 1139.

**14.2. UN proper shipping name**

COATING SOLUTION.

**14.3. Transport hazard class(es)**

Class 3

**14.4. Packing group**

II

**14.5. Environmental hazards**

Environmentally                      NO  
hazardous  
substance/marine product

**14.6. Special precautions for user**

No.

**Sea Transport (IMDG)**

**14.1. UN Number**

UN 1139.

**14.2. UN proper shipping name**

COATING SOLUTION.

According to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision Date: 24.10.2022

Supersedes Date: 15.12.2021

#### **14.3. Transport hazard class(es)**

**Class 3**

#### **14.4. Packing group**

II

#### **14.5. Environmental hazards**

Environmentally  
hazardous  
substance/marine product

NO

#### **14.6. Special precautions for user**
