### Description

Eco Power Cleaner Organic, Inorganic is an ecological degreaser in gel form, which specially developed for removing high fat concentrations in the catering industry and industry. High performance. Safely breaks down oil, grease and many other stubborn dirt.

### technology

The technology used is based on the combination of surface-active substances of plant origin and a small amount of oxygen-containing solvents. This combination produces highly effective results, without any danger

for people or the environment.

### components

<5% non-ionic surfactants.

**dosage** 1:1  
to 1:10. Dilute with cold water.

**For professional use only.**

### domain

Eco Power Cleaner Organic, Inorganic is ideal for cleaning difficult accessible places or areas. The gel-like texture makes for easy adhesion to the surface. For use in the catering industry as a grill and surface cleaner. Do not use cleaning agents on untreated wooden floors.

### instructions for use

1. Spray the cleaner directly onto the surfaces to be treated.
2. Let it work for a few minutes.
3. Remove excess cleaning agent with a brush or clean cloth.
4. Rinse with clean water.
5. Repeat the cleaning process if necessary.

### cleaning instructions

- Follow our dosage recommendations as this will save costs and protects the environment.
- Do not mix Eco Power Cleaner Organic, Inorganic with other

cleaners.

- Always clean from top to bottom or from cleanest place to cleanest place. the dirtiest area.
- Do not use the cleaner on natural floors and unsealed wooden floors (grey (if possible).
