ready to use

pH value 2.5

Description

Bio Power Cleaner Lime, Rust is a ready-to-use ecological, biocompatible universal descaler and rust remover based on highly effective organic acids. They are an effective and ecological alternative to the use of hydrochloric acid and phosphoric acid.

technology

The technology used combines easily biodegradable New generation plant-based surfactants organic acids and extracts obtained by lactate fermentation. The precise Matched ingredients ensure exceptional descaling results without the use of harmful acids.

components

<5% non-ionic surfactants, biocompatible lactic acid, colorant, perfume, preservative.

dosage

Ready to use.

For professional use only.

domain

Bio Power Cleaner Lime, Rust is ideal for descaling and removing rust from surfaces, for example: For example toilets, urinals, bathtubs, fountains and stainless steel surfaces. The cleaner is specially developed to remove large amounts of limescale and rust deposits.

instructions for use

1. Apply the cleaner directly to the surfaces to be treated.
2. Let it work for a while.
3. Clean mechanically with suitable means (brush, sponge, etc.)
4. Rinse with clean water.

cleaning instructions

- Do not mix Bio Power Cleaner Lime and Rust with other cleaning agents.
- Always clean from top to bottom or from cleanest place to cleanest place. the dirtiest area.

DANGER! Do not use on marble, limestone surfaces or other acid-sensitive surfaces!
