### APPLICATION MODE

### CERTIFICATION

### DOSAGE

Pure

pH - neutral

ready to use

### Description

Organic Odor Remover Urine is a ready-to-use odor remover. It neutralizes the uric acid odor very effectively and combats the cause of the odor development.

### technology

The technology used is based on competitive bacterial cultures that specially developed for the rapid breakdown of urea and organic material. Their ability to multiply on dirty surfaces neutralizes urine and other substances that cause unpleasant odors. The effect is that bad smells disappear.

### components

<5% non-ionic surfactants, bacterial cultures, perfume, preservatives.

### dosage

Ready to use.

For professional use only.

### domain

Organic urine odor remover is ideal for removing odors in public toilets, retirement homes, day care centres and mobile toilets. Wherever there is a strong odor of uric acid.

### instructions for use

1. Spray the odor eliminator directly onto the bad smelling surfaces and let it do its work.
2. Repeat once or twice a day if necessary.
